

## **The Impressionistic Charts**

### **Chapter I: Creation of the Earth/Idea of the Universe -**

almost all of this chapter happens in lower; all should be repeated in upper, with extensions and final lessons

- God with No Hands
- Experiments with God with No Hands
- Notes on the Story
- Follow-Ups to the Story
- Composition of the Earth
- Further Details of the Composition of the Earth
- Formation of the Mountains

### **Chapter II: Nature of the Elements -**

mostly lower elementary, but extensions/review into upper elementary

- Three States of Matter
- Further States of Matter
- Different Ways of Combining
- Separation, Saturation, Super-saturation
- Attraction and Gravity

### **Chapter III: The Sun and the Earth -**

all of it at both ages in various depths of study

- Rotation of the Earth and Its Consequences
- Time Zone Chart
- Earth as a Sphere and Its Result
- Tilt of the Axis
- Seasons and the Two Tropics
- The Zones
- Zones' Work Chart
- Protractor Chart
- Seasons Work Chart
- Protection of the Atmosphere and the Rains

### **Chapter IV: The Work of Air -**

all of it at both ages in various depths of study

- Experiments Prelude to the Winds
- The Winds
- Land and Sea Breezes
- Changes in the Winds Caused by the Seasons
- Rains
- Work Chart of the Winds
- Ocean Currents Caused by Winds
- Wind as a Sculptor

### **Chapter V: The Work of Water -**

all of it at both ages in various depths of study

- The River
- The Rains
- Ocean Waves
- Ice
- Water Cycle
- Spread of Vegetation
- People in Different Zones

### **Chapter VI: Human Geography**

- Interdependence of Human Beings in Society (SPECIFICALLY noted as lower elementary)
- Economic Geography (early stages are lower elementary; later stages upper)
- Study of Natural Resources (this album page onward, typically upper elementary, but lower elementary for those interested - although the TOPICS can be introduced at the lower elementary level for each of the topics in the chapter)
- What is Produced and Where
- Study of Consumption
- Comparison of Production and Consumption
- Imports and Exports
- Volume of World Trade
- World Commerce
